## Job Description

### Summary/Objective

Monnit is a growing and dynamic company with a bright future. We are looking for individuals wanting to be part of this team-oriented company. We currently have an opening for a Front End Developer

Be a part of one of Utah's fastest growing technology companies. We're looking for a driven Front-End Web Developer that can design and develop, release, and maintain web applications and ensure continual innovation. Monnit's Front-End Developer position requires strong interpersonal and communication skills. Full time 40 hours per week no telecommuting.

### Job Responsibilities

Web design and management with a strong emphasis on visual elements and user experience. Provide support in resolving cross-browser and cross-device application issues with Google Chrome, Internet Explorer (IE), Firefox, Safari, and Edge. Work within brand guidelines and standards to ensure the online content supports accomplishing overall strategic plan. Employ best practices for designing scalable extensible and secure applications.
