Testing Technician

What You'll Do

Work as a critical member of our hard-working, award-winning testing team. You get to test the quality and performance of our sensors using various examinations. Are you motivated to work in a fast-paced environment and looking for career-growth opportunities? Come and join the Monnit testing team.

What We Do

Monnit is a global leader in the Internet of Things (IoT). Be part of a creative and diverse team culture as we build and market connected devices. With our sensors, we connect business-critical things to the Internet and send actionable data to keep people in the know about conditions and performance. Our remote monitoring solutions help people solve problems and improve operations in nearly every industry.
